**Now stocking the Skyline III**

Now in stock at Northwest Stoves, the Marquis Skyline III VRB46N linear zero clearance fireplace. Much like its predecessor, the Skyline II ZRB46, the Skyline III produces magical flames with a wide-view appeal for today’s consumer.

What’s new with the Skyline III is the optional enclosure grill (GK-V46EG) that is available with the unit, which relocates the excess heat out of the cavity above the fireplace to a desired location. This creates walls that are cool to the touch, allowing for lower mantel heights, and making it TV-friendly. For a short time, both the ZRB46 (TBD) and the VRB46 will be available at NW Stoves.

**Pacific Energy’s Fire Up Your Savings Program**

Until September 30th, consumers can save up to \$350 off the purchase of select gas and wood burning appliances through Pacific Energy’s Fire Up Your Savings (FUYS) Program.

To qualify, end users must go to [pefp.net](http://pefp.net) and download the FUYS coupon. They then bring it into the nearest participating dealer and can save the dollar amount available for the unit of their choice. For more info and a list of available units, visit [www.northweststoves.ca](http://www.northweststoves.ca).

**Saber Grills Cool Touch Grill Brush**

There has been talk in the news lately about wire brushes being used for cleaning grills. The wire bristles can dislodge from the brush and get stuck in the food you’re grilling, thus become a choking hazard. I can personally speak to this because it recently happened to me. Fortunately, the wire only got stuck in my throat in a place that was uncomfortable and not life-threatening and I was able to dislodge it after a few minutes. But that brush quickly found its way to our trash, having been replaced by Saber’s Cool Touch Grill Brush. The Cool Touch Brush has

abrasive bristles that can last up to 5 times longer than wire brushes. A replacement head is available and the head is removable for easy cleaning or replacement. A SS mesh replacement head is also available for cleaning the grill while it’s still hot.

**Ride to Conquer Cancer**

Many of you have felt for a long time that Chris Vecchies goes above and beyond for his customers. This is one of the things that makes him the valued member of our team that he is, and one of the many reasons for his recent promotion to Warehouse Manager. However, Chris goes

above the norm outside of the office too, as he takes time out each year with his cycling team (pictured above) to raise money in the Ride to Conquer Cancer, which takes the participants on a tough, 2 day ride from Vancouver to Seattle. Their group, titled **Riders for Ryders**, has raised almost \$3 million for cancer research since 2009. For info, visit [www.ridersforryders.com](http://www.ridersforryders.com).

No-one is immune on day #1

**2017 Accessories Program**

In late August, look for Northwest Stoves’ annual Accessories Program to arrive in your inbox. This program allows you to order much needed cleaning and maintenance supplies, fireplace accessories, log racks, Ecofans—any many other items—for a minimum of 60 day terms. For larger orders, there is an optional cash discount which can save you 5% as well. Don’t miss out when you see the program arrive!
